

FS/YR 1 Newsletter

Friday 13th March 2020

Dear Parents and Carers,

We have had a busy week! The children enjoyed running, walking and skipping a mile for Sports Relief!

This week Year 1 made their own delicious pizza's and ate them!

The children worked together to write their own non-chronological report for a non-sense country, using alien words to give information about foods etc. Inspiration was taken from Roald Dahl's revolting rhymes!

In Maths the Year 1 children have continued to consolidate their knowledge of numbers to 50. They have been looking at more and less within this number sequence using Charlie Crocodiles. The children have also been practising counting back from a given number within the sequence.

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20
21	22	23	24	25	26	27	28	29	30
31	32	33	34	35	36	37	38	39	40
41	42	43	44	45	46	47	48	49	50

In science the Year 1 children have been noticing signs of Spring and comparing the differences in trees between the seasons. They have also continued their bean diary, writing any changes they have noted.

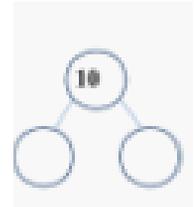

FS children continued to build on their story from last week, creating storyboards with a variety of animals and thinking of ways the hapless hunters could capture them! Some children even began writing their own stories. The children also looked at the differences between fiction and non-fiction books

The Foundation/Year 1 Team

The children also looked at the differences between fiction and non-fiction books.

On Wednesday we discovered that Miss Clark's Beat Baby was lost, lots of the children set about ways of finding her, some went on hunts and others made posters, describing her and saying where she was last seen. Hopefully with all the children's hard work we will find her soon!

In Maths we have been continuing to look at number bonds to 10, the children have been using part part whole models, bead strings and objects to look at the different ways we can make 10. Some children even made their own bead strings!

At home you could try EYFS:

- Creating your own part part whole model using numbers to 10
- Making a poster about something you have lost.
- Looking at a variety of books and deciding whether it is a fiction or non-fiction book.

Year 1:

- Counting backwards from any number in the number sequence to 50, watch out for crossing the 10's!
- Make an information poster about a made up country using non-sense words – what food would you eat, what types of animals live there?
- Practise spelling the following words:

Every child must	Most children should	Some children could
<i>looked</i>	<i>come</i>	<i>back</i>
<i>very</i>	<i>will</i>	<i>from</i>
<i>don't</i>	<i>into</i>	<i>children</i>

Wellie Wednesday Rota
